Before you collaborate

A little bit of preparation goes a long way with this session. Here’s what you need to do to get going.

 10 minutes

Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

 5 minutes

PROBLEM

How might we can do liver patient analysis?

Key rules of brainstorming

To run an smooth and productive session

Stay in topic.

Encourage wild ideas.

Defer judgment.

Listen to others.

Go for volume.

If possible, be visual.

Brainstorm

Write down any ideas that come to mind that address your problem statement.

🕒 10 minutes

TIP

You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

pavithra .B

The liver is the body's largest and most important metabolic organ.	The major bio-chemical factory of the body processing nutrients and manufacturing substance for the body.	It also produce biles as a part of the biliary system also includes the gallbladder.
Major function of the liver:production of bile salts		

Padmini.S

The liver is divided into hexagonal tissue segment called hepatic lobules that surround a central vein.	The liver contains ducts that carry bile from the hepaticytes.	metabolic processing of nutrients.convertin g nutrients into from cells can use.
Breaking down body wastes,drugs and foreign components.		

Parameswari.M

Synthesis of plasma protiens clothing factors transport protiens.	Each hepatocyte has direct contact and both venuous blood.	reaction to medications,drugs or toxic chemicals.
Removal of toxic or harmful substance from the blood.		

Pavithra.S

comparitve overview of state-of -the-art liver CAD systems based on modalities(US,MRI and CT).	The scope of artificial intelligence in the identification of multi-class liver cancer.	Systematic survey of image pre-processing and attribute analysis for malignant liver diagnosis.
Comprehensive analysis on the diagnosis of primary-verses secondary liver cancer (fibrosis verses cirrhosis,hepatocellular-verses cholangio-carcinoma,etc..

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

 20 minutes

TIP

Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

1. It also produce
bile as a part of
the biliary
system also
includes the
gallbladder.

2. The liver is
divided into
hexagonal
tissue segment
called hepatic.

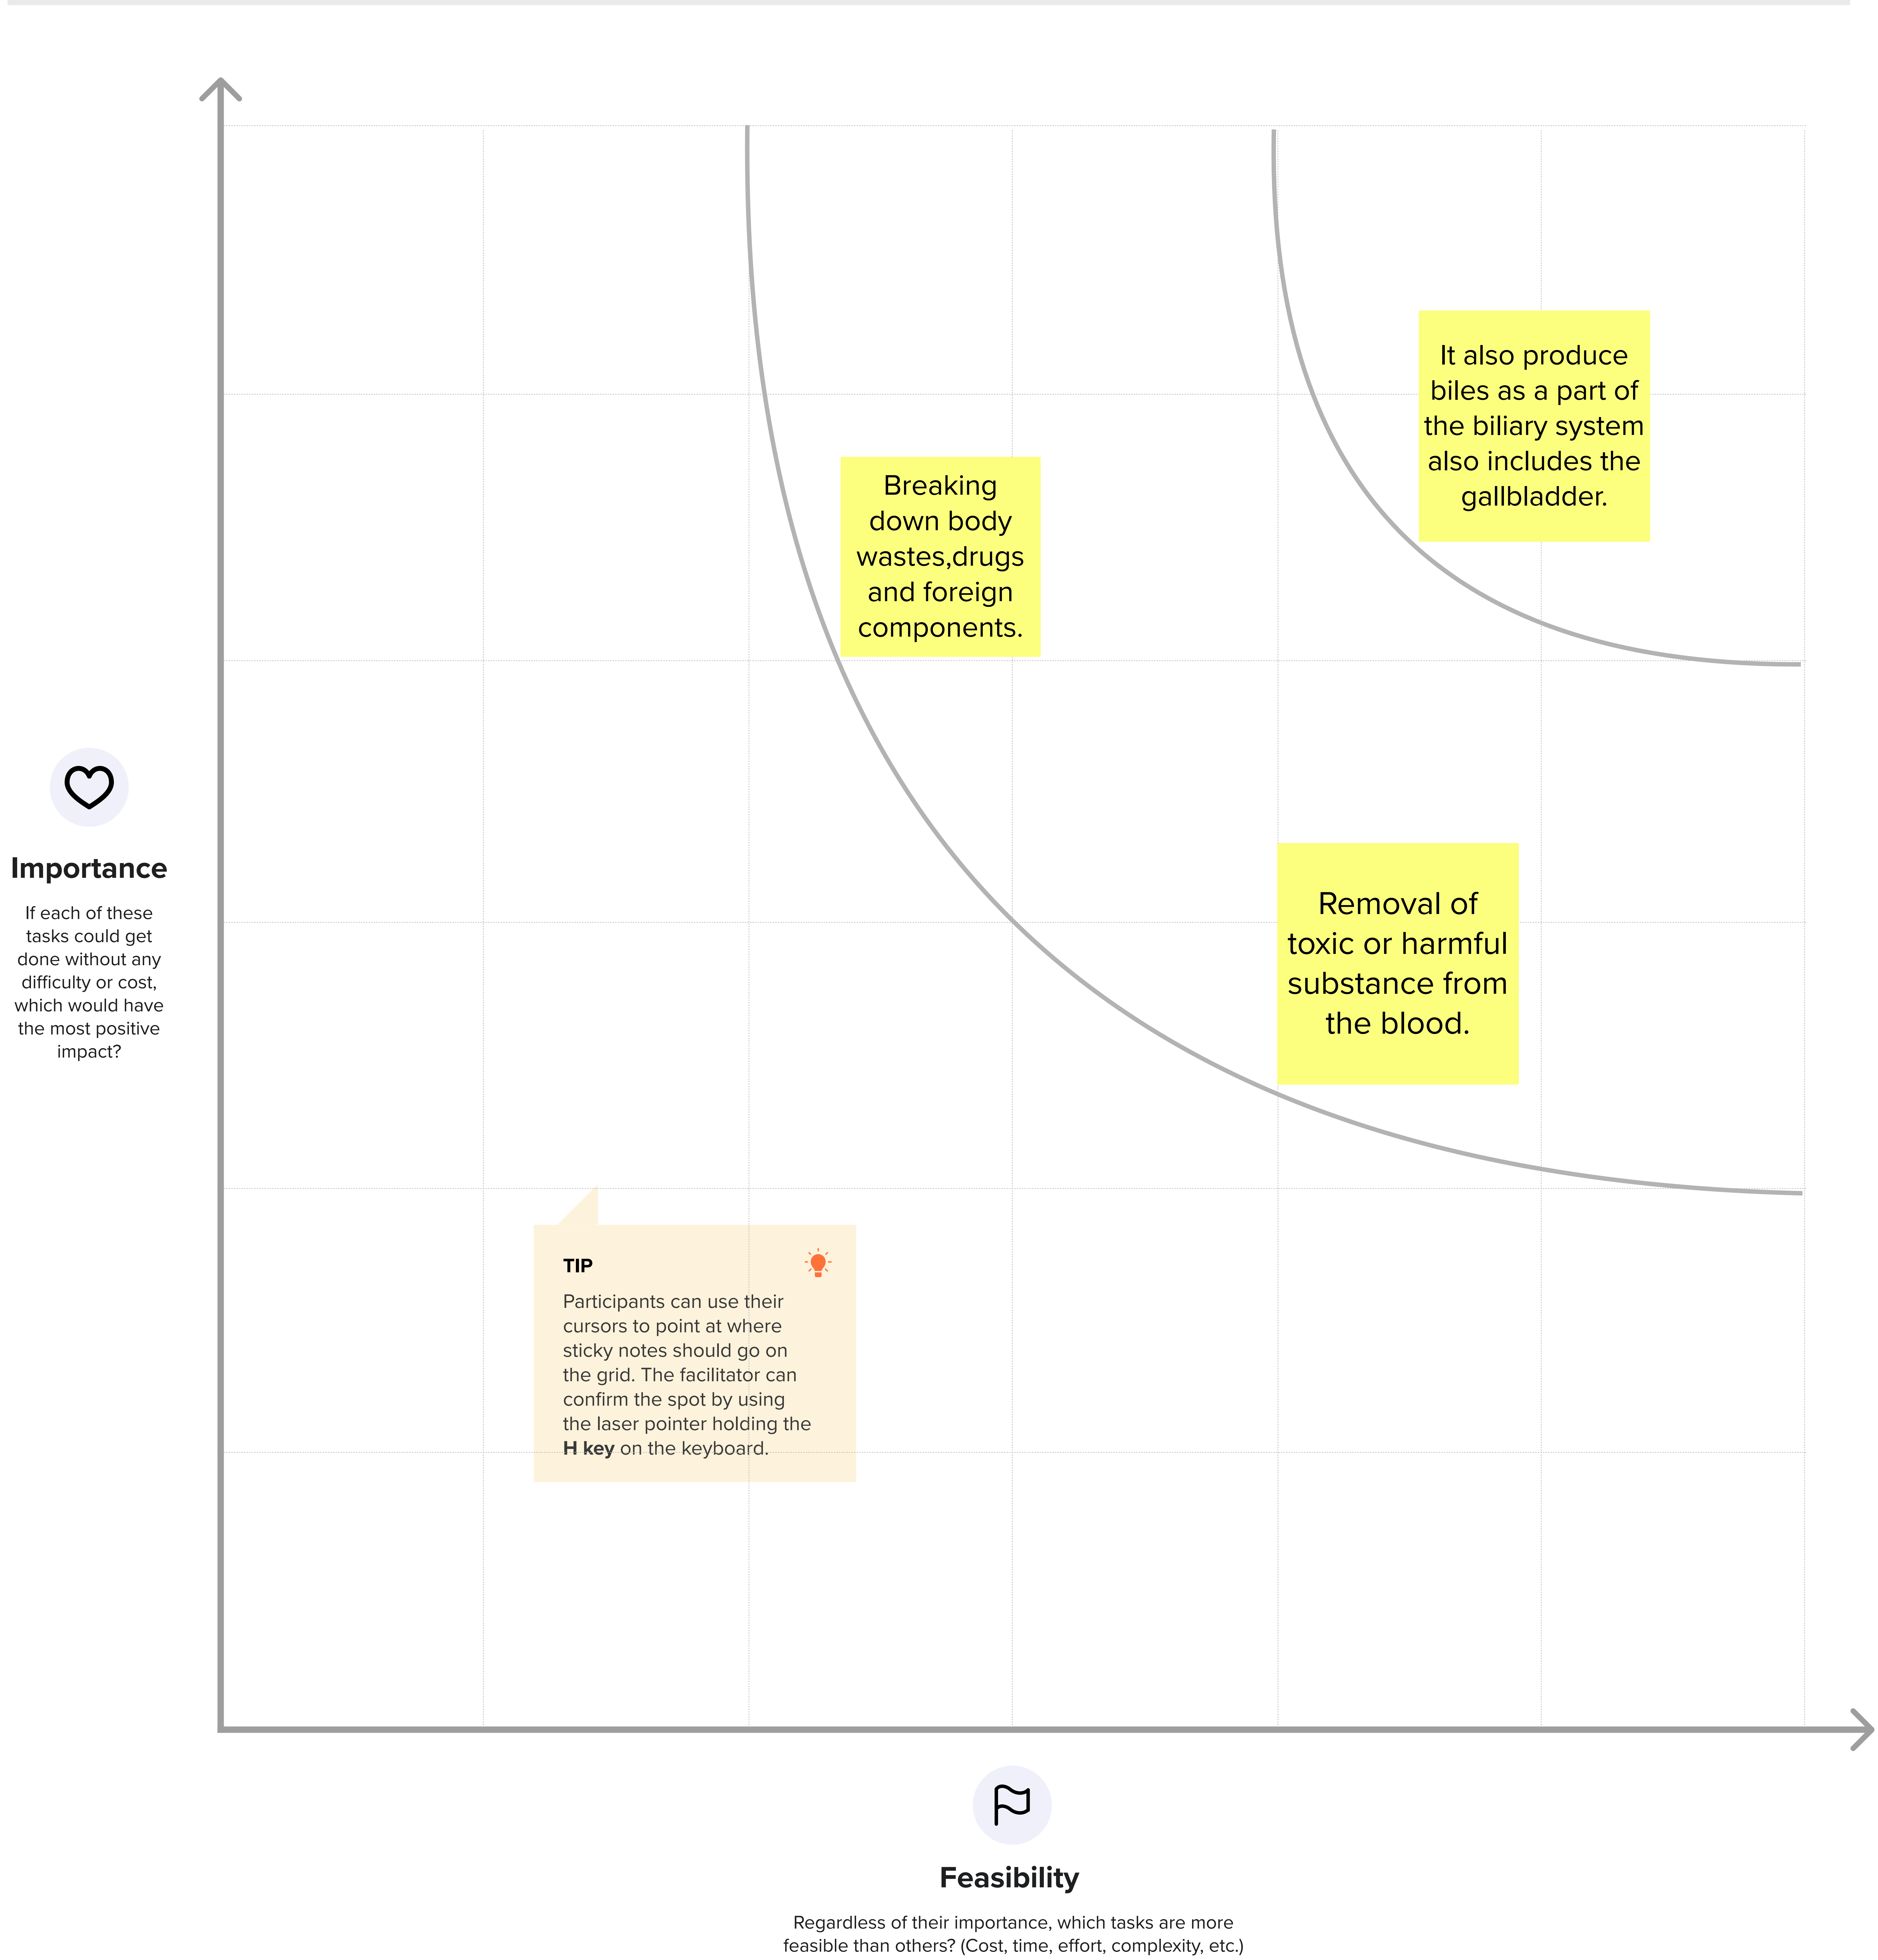

3. Metabolic
processing of
nutrients
converting
nutrients into from
cells can use.

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

🕒 20 minutes

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

- A

Share the mural
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.
- B

Export the mural
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward

- Strategy blueprint**
Define the components of a new idea or strategy.
